Electric Strikes

**GK231/233/236 Series**

**Strong, Durable, Preload Solution**

The GK231/233/236 series European electric strike has a robust stainless steel construction and is designed with its high preload release capability. It opens electrically with up to 500 lbs of preload that allows smooth operation under varying loads on the doors and overcomes door preload problems, such as air-conditioning pressure, warped doors, or heavy weather stripping seals.

**Standard Features**
- Stainless steel construction
- Static strength 1,500 lbs (680Kg)
- Up to 500 lbs (227Kg) of preload
- Fail-safe
- Handed (Specify when ordering)
- Endurance over 250,000 cycles
- Works with cylindrical locksets or European latches

**Patents, Approvals, and Listings**
- NF S 61-937 compliant (GK231, GK233)
- Fire resistance testing standards BSEN 1634-1:2014 and BSEN 1363-1: 2012 compliant (GK231M)

**GK231/233 Special Features**
- Optional latch & lock monitor
- Adjustable keeper (For GK233/233M)
- Reversible faceplate included (Round or square corner faceplate option available)
- Works with cylindrical locksets

**GK236M Special Features**
- Lock monitor
- Adjustable keeper
- No frame cutting required
- Recommended for use on wood doors
- Reversible faceplate included (4 Faceplate options available)

**Handing of Door**

Door handing is determined from the side of the door where the hinges are visible, according to the German standard DIN 107.

Stand facing the door on the hinge/pull side. If the hinge is on the right, the door is considered to be DIN right. If the hinge is on the left, then the door is considered to be DIN left.
Optional Lip Extensions
(For GK231/231M/233/233M)

Adjustable Keeper
(For GK233/233M/236M)

The keeper can be moved horizontally to compensate for installation difficulties such as warped doors.
(Maximum adjustable range: 3mm)
