

# Non-Latching Exit Device **Micro Switch Push Bars**

Mechanical Release for Safety and Reliability

**PBA-860LD/PBA-860LDT**

The PBA Micro Switch Bar Series are non-latching push bars designed for use in combination with electric locks for door release. PBA-600LD and PBA-860LD features a LED indicator which allows people to locate the bar in the dark quickly and easily. PBA-600LDT and PBA-860LDT features time delay of up to 50 seconds as well as a volume adjustable buzzer.

The PBA Delayed Egress Series is specially designed for doors that require delayed egress while a electromagnetic lock is already installed. These can be installed in emergency exits in commercial centers to delay the egress of unauthorised exit. This system allows security personnels to be alerted while allowing people to exit safety in case of emergencies.
