

PBA-860 Micro Switch Push Bar

The PBA-860 mechanical micro switch push bar is designed for use on emergency exit doors or large-scale outswing doors. Pressing on the bar activates the interior micro switch, which will remove power to the electromagnetic lock, in turn unlocking the door for immediate egress.

875(L)*66(W)*61.5mm(D)
 Finish: Clear anodized
 Switch rated 5 Amp/125VAC
